Student

📞: 862 493 9365

Date of Birth : 03/28/2003

✉: nerkaratharva9@gmail.com

Gender : Male

📍 : 219, Shreyas APPT KT Nagar , katol road ,
nagpur, Nagpur, Maharashtra.

Marital Status : Single

Nationality : India

With expertise in data analysis, visualization using Power BI, and data preprocessing/cleaning in Python, I bridge insights from diverse fields. My proficiency in Android app development (Java, Flutter, Firebase) and machine learning via Python showcases a unique skill fusion. I've applied machine learning algorithms for projects, employing data mining techniques. My strength lies in translating complex data into actionable strategies, creating impactful visualizations, and developing user-centric solutions. I bring a versatile skill set, adept at uncovering insights and driving innovation through data and mobile application development.

📁 Work Experience

February 2023 - March 2022 **Data Science Intern**

Oasis Infobyte

Nagpur, Maharashtra

A data science and machine learning intern is a student or recent graduate who is hired by a company or organization to work on projects related to data science and machine learning. They typically assist data scientists and machine learning engineers with tasks such as data cleaning and preprocessing, model development and evaluation, and data visualization. They may also be involved in researching and implementing new algorithms and techniques, as well as testing and debugging code. The intern may work on a specific project or be involved in multiple projects throughout their internship. This role provides an opportunity for the intern to gain hands-on experience in the field of data science and machine learning, as well as to learn from experienced professionals in the industry.

AIML Lead

Google Developer Students Cub

Nagpur, Maharashtra

As an AI and ML lead, I had the opportunity to work with a diverse group of students and help them learn and develop their skills in artificial intelligence and machine learning. I also had the chance to organize events, workshops, and competitions to promote AI and ML within the community.

My role involves mentoring students, helping them with their projects, and providing

guidance on how to use AI and ML tools and techniques effectively. I was responsible for staying up-to-date with the latest developments in AI and ML and sharing your knowledge with the community.

Overall, being an AI and ML lead at the Google Developer Students community is an exciting and rewarding role that allows you to make a significant impact on the learning and growth of students interested in AI and ML. It also provides you with the opportunity to network with industry professionals and gain valuable experience in the field.
