- C++

## PROFILE

Here's a revamped bio for the app developer:

Passionate mobile app developer with a strong foundation in Flutter for building beautiful UIs and Kotlin for crafting robust backends. Utilizing Firebase to power app functionality. Currently pursuing a BTech in AI & DS to further enhance my development capabilities.

This bio highlights:

- Skills: Flutter, Kotlin, Firebase
- Education: BTech in AI & DS (ongoing)
- Passion: Mobile app development

## PROJECT EXPERIENCE

### Women Safety App

Mar 2023 - Aug 2023

<https://github.com/OMwanjari/Kawach>

It's a Women Safety app in Flutter and Firebase. The app contains an SOS button that sends a message to guardians and their location automatically. It also contains a Community for Women's safety, also contains nearby important stops and police & other emergency numbers.

### Health Care App

Dec 2022 - Feb 2023

<https://github.com/OMwanjari/hello>

We made an app in Flutter named "hello" for "Consulting Doctors on your Phone". It can book an appointment as well as a video call with a doctor available as per your convenience.

### YCCE Canteen App

Aug 2023 - Present

[https://github.com/OMwanjari/DineSmart\\_CollageCanteen\\_App](https://github.com/OMwanjari/DineSmart_CollageCanteen_App)

It's an app for YCCE Canteen named "Dine Smart" built in Kotlin and database using Firebase. You can order your food from the app and pay online for your order. You can order food at your place.
